Created server extensions for a video game (Minecraft),

Drafting and analysis of specifications, implementation of software architectures,
Development and ticket resolution.

Java, SQL, HeidiSQL, Trello, Git

Educations

Machine Learning Specialization - Stanford Online & DeepLearning.AI

Introduction to Supervised and Unsupervised Machine Learning Algorithms.

ENSIMAG - Apprenticeship

Participation in IT security associations (OWASP Top10, CTF)

C, Java, Python, Advanced Algorithms, Security, Networks, NoSQL

Top of the Class

IUT Computer science - Apprenticeship

C++, POO, UML, SQL, PL/SQL, PHP, Java, JavaScript

Top of the Class

Scientific Baccalaureate - Good Honors

Engineering Science with a focus on Computer Science and Digital Science

Java (Processing, Eclipse), C++ (Arduino)

First Prize - IOT 2018

Interests

Programming

Electronics

Video Animation

Sleight of Hand

Skills

Programming Languages

Java

Go

C++

NodeJS

JavaScript

Python

AI Algorithms

Supervised

Unsupervised

Databases

Relational

Oracle

PostgreSQL

NoSQL

Neo4J

MongoDB

PL/SQL

CI/CD

GitHub Actions

Gitlab CI

Jenkins (Groovy)

Systems & Networking

Bash

Docker

Kubernetes

Testing & Methodologies

TDD (JUnit)

BDD (Cucumber)

Agile Methodology (Scrum)

Languages

English - TOEIC B2

Tools

IntelliJ / Eclipse

Visual Studio Code
